

Anti-Aging Therapy with Nano NovaNAD+

Live younger, longer –
with cellular precision

Leading the future of Nano NAD⁺ therapy

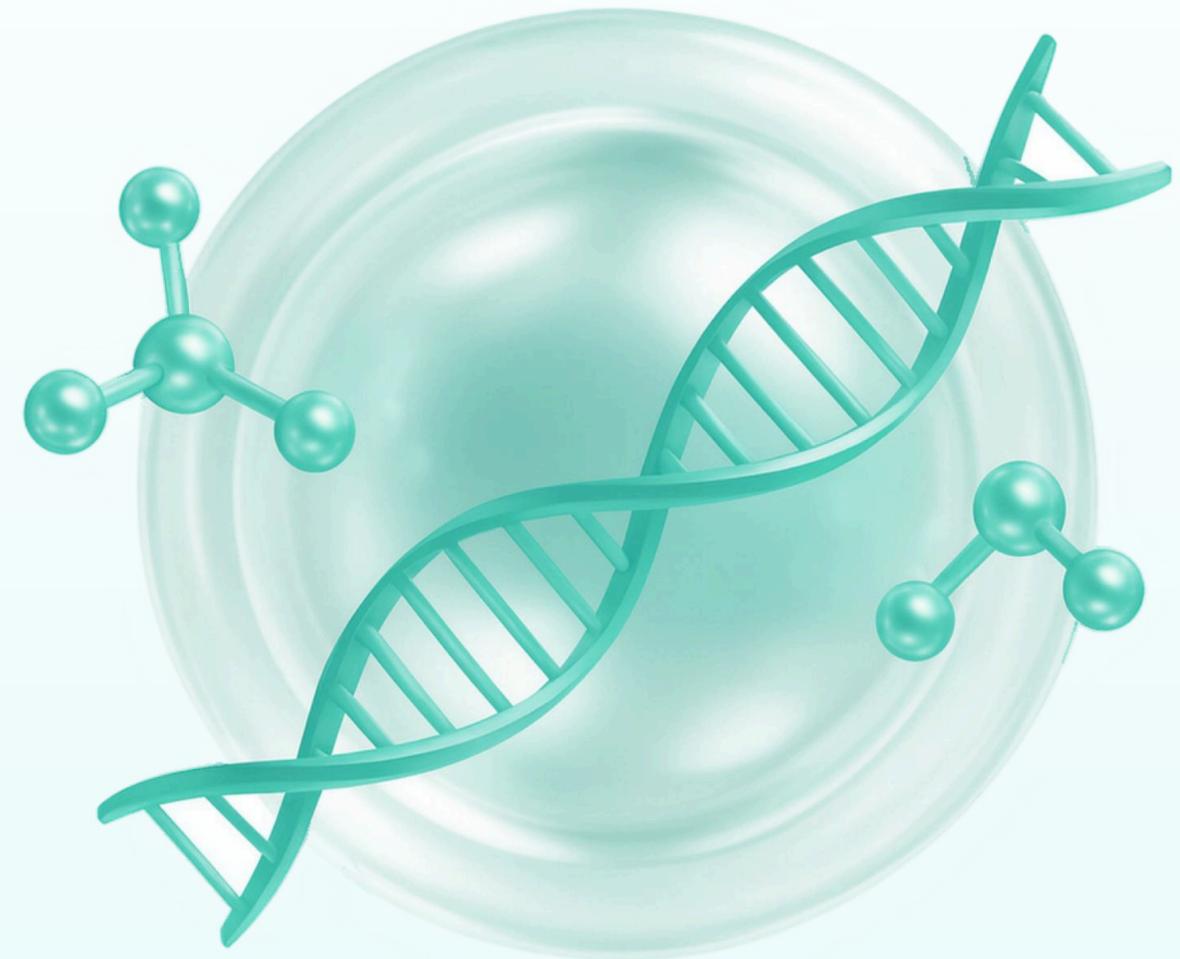

At True Pharmaceutical, we are reshaping the role of NAD⁺ in modern medicine—combining science, clinical expertise, and a clear purpose to:

• extend youth

• enhance wellness

• support a vibrant, active life

Trusted by leading clinicians worldwide, NovaNAD⁺ delivers purity, safety, and proven results—set to be the world's first NAD⁺ pharmaceutical drug.

What is Nano NAD? Meet NovaNAD

Nano NAD⁺ is a vital molecule found in every cell of the body. It plays a key role in

producing energy (ATP)

supporting cell repair

maintaining overall balance in the body

Highest absorption rated Nano NAD+ from Korea

NovaNAD is a purest cellular anti-aging NAD therapy with highest NAD absorption rate.

Whata makes it "Nano"?

Nano NovaNAD+ features NAD⁺ processed into nano-scale particles.

Reducing particle size increases surface area and improves cellular interaction, supporting enhanced bioavailability and more efficient absorption compared to conventional formulations.

This formulation allows:

improved cellular uptake

greater stability in solution

more consistent performance

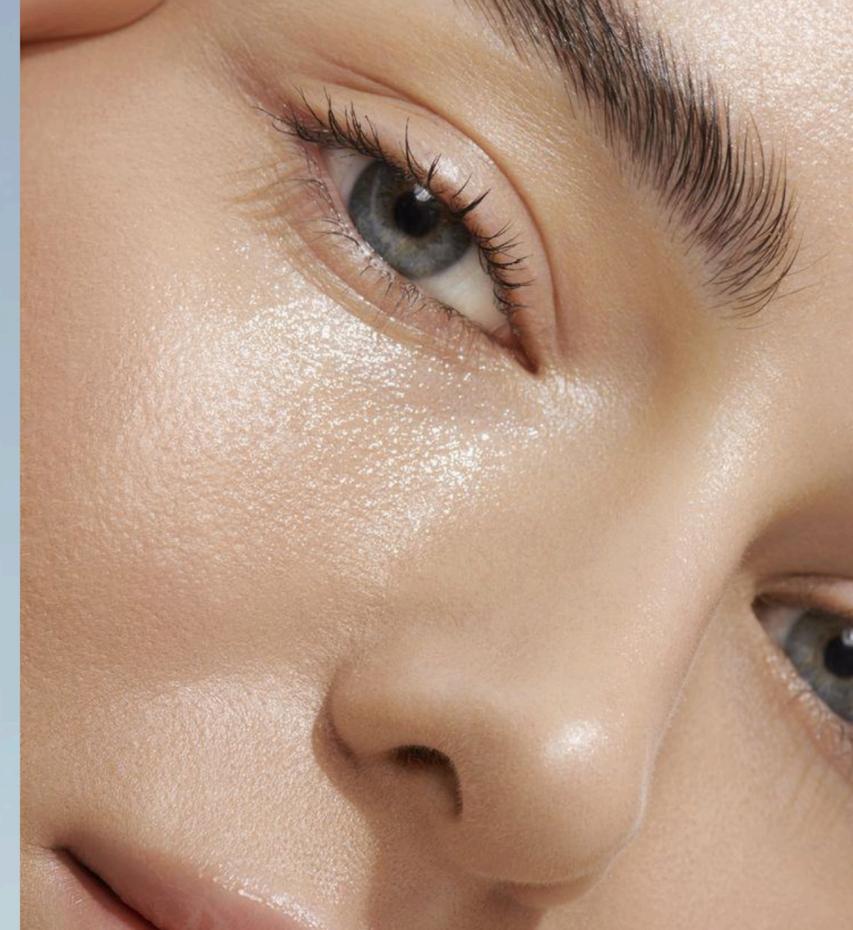

What does NovaNAD+ do for you?

Nano NovaNAD⁺ enhances what matters most by targeting eight essential areas of vitality and wellbeing.

**Mental Clarity &
Clear Brainfog**

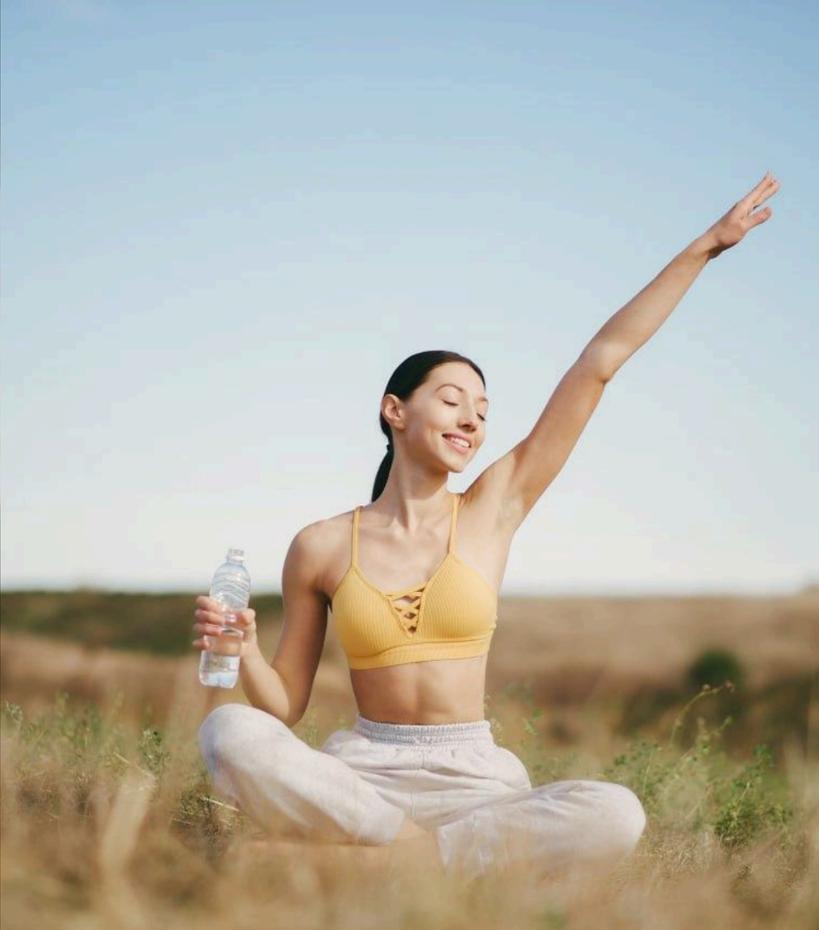

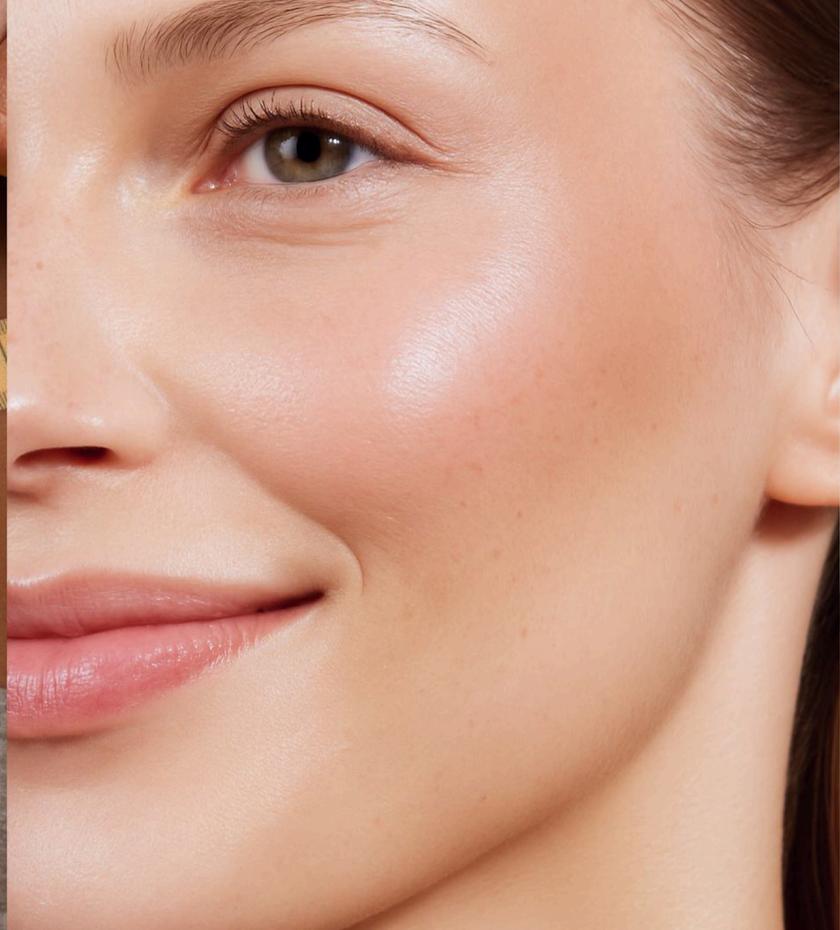

**Anti-Aging &
Rejuvenation**

**Immune
Support**

**Cellular
Repair**

**Faster Metabolic

Nano NAD⁺ Decline is a key driver of cellular aging

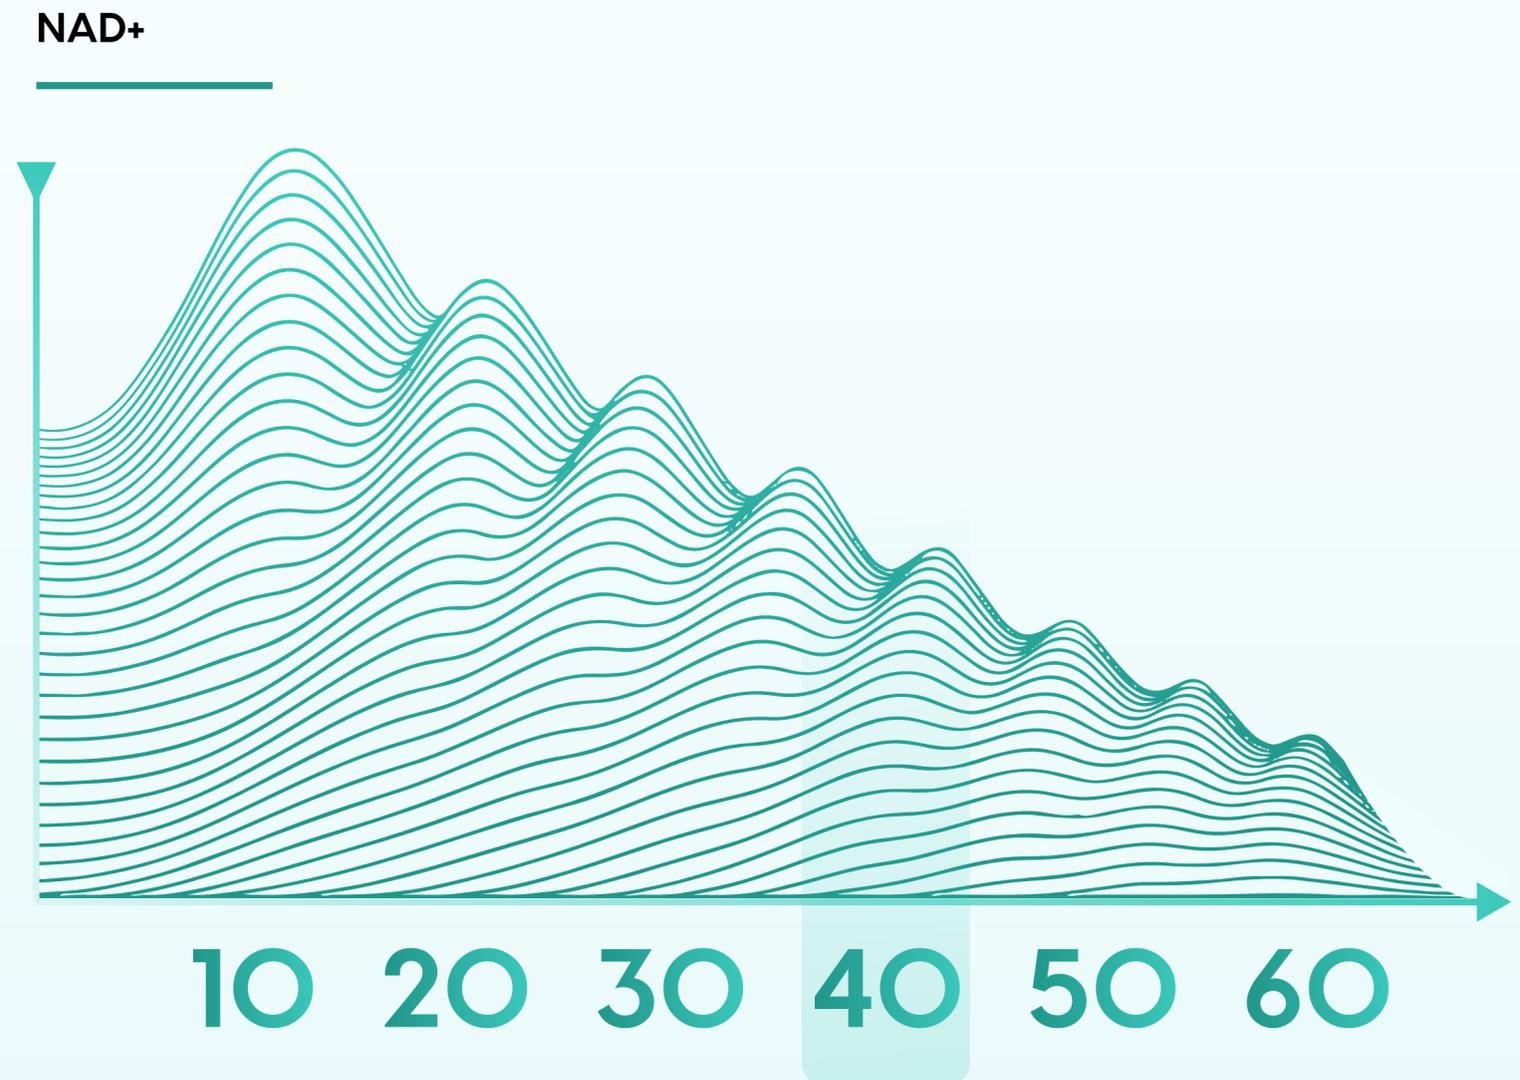

Research shows that **NAD⁺** levels naturally drop to

50% of youthful levels

by age 40 and **continue to decline with age.**

This decline is linked to **lower energy, impaired DNA repair, and increased risk of age-related diseases.**

Why Nano NovaNAD?

FORMULATION

Nano NovaNAD is formulated with reconstructed Nano NAD. With the purest NAD, we have enhanced its absorption rate and its bio-stability. NovaNAD has successfully reduced major side effects from its powerful ATP insertion and kept its core effect.

RESEARCH & DEVELOPMENT

Nano NovaNAD's development involved extensive research and evaluation by a team of US-based health professionals and pharmacists. Our commitment to ongoing research ensures that Nano NovaNAD maintains high standards of quality and innovation in the wellness industry.

PRODUCTION

Nano NovaNAD is produced in one of Korea's top-tier certified manufacturers, with strict quality standards and a dedicated research facility to maintain its bio-stability and purity. Its production is supported by in-house cell and compound research centers, ensuring consistent high-quality formulations.
